DETAILED ACTION

Allowable Subject Matter

1. Claims 1-26 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

For claims 1, 4, 15-16, and 19, the prior art of record does disclose a microcontroller-based system for detecting ground-fault and ground-neutral conditions, comprising a sensor, wherein said microcontroller is programmed to use said sensor output signal to detect ground-fault and grounded-neutral conditions during spaced time intervals as taught by Sircom.

The art of record does not disclose or suggest the above claimed features, nor would it be obvious to modify the art of record so as to include either of the above limitations.
